

# Ostap Brehin

## ABOUT ME

My passion is to make reliable apps that solve people problems and makes their life easier.

I like contributing to Open Source, connecting with people and solving technical challenges.

I try to keep my code as clean as possible, by using best practices, patterns, and SOLID principles.

## MY CURRENT STACK

Back-end:

- PHP 8
- Laravel
- PostgreSQL
- Redis

Front-end

- Tailwind CSS
- Vue 3
- TypeScript

## CONTACT DETAILS

GitHub: [github.com/osbre](https://github.com/osbre)

Email: [osbre@protonmail.com](mailto:osbre@protonmail.com)

## OTHER STUFF

Sometimes I play Ukrainian musical instrument - Bandura

## PROJECTS

### FormBold.com

(I was doing mostly back-end part there)  
SaaS platform that provides the opportunity to easily add backend for web forms, collect submissions and integrate with different services for notifications such as Telegram, Slack or Webhooks.

Built with Laravel, PHP 8, MySQL, Inertia.js, Vue 3, Vite, GitHub Actions.

### NotionMailer.com

Micro-SaaS that allows users to send their Notion pages as emails, use them for a newsletter and campaigns. Integrates with Mailchimp and MailerLite

Built using Laravel, Alpine.js

### Platform for programming courses

A platform where users can learn programming by doing interactive tasks, quizzes & more.

Made using Laravel, Vue.js, Docker

Open-sourced at [github.com/code-co-ua](https://github.com/code-co-ua)

### REST API for school petitions app

Available at [github.com/smuzi-ua/dumka-backend](https://github.com/smuzi-ua/dumka-backend)

Built with Laravel & PostgreSQL

## EDUCATION

### Ternopil Tech Lyceum

High school in Ukraine. Graduated in 2022
